

FlashCut **Easy** 888 VRX

Innovative knife cutting system with automatic visual detection, engineered for printed materials and re-cut. The high-resolution cameras allow to automatically recognize multiple different prints based on the color contrast between the material and the figures. The Pattern Matching modality allows the machine to automatically find pre-loaded shapes on the material.

Name	Working Area	Max Absorption
Easy 888 VRX	1600x600mm	6.8 KW
